25th Anniversar

"The Mark of Cain" is the subject of the fourth sermon which Evangelist F. F. Cook is to discuss before the Washington Temple Congressation (non sectarian) in New Masonic Temple tomorrow afternoon at 1 o'clock.

The series is proving of deep interest to many Bible students of the city, many new ones attracted by the topic of Sunday, "The Lord's 400," attending, and listening to a discourse in which the evangelist declared that the real "400" of the world's society today is not made up necessarily of those who are rich, noble or wise, but "rather those who have been called out, separated unto have been called out, separated unto how of the world's society today is not made upon his work in this his in only charge directly after bein attended from Princeton Theologic deemer has promised He will set up."

Sunday Service

At Scientist Church

In the Christian Science Church tomorrow attention will be invited to the subject of the origin of the universe. It is said the theories of geology and evolution to account for primal causation will be shown to be inadequate and at variance with Bible statements. It will be shown that to be consistent God must be admitted to be the only cause, and that since God is Spirit He could not have created matter, for Spirit and matter are opposites. The conclusion will therefore be inevitable that the real universe is spiritual, and that what is termed matter is a transient sense sooner or later to be replaced by the real and eternal.
